

# PRESS RELEASE

## World's First "USDA Certified Organic" Pesticides

Salem, OR ----Pharm Solutions Inc. has announced seven of its pesticides have achieved USDA National Organic Program Certification. Rose Pharm, Veggie Pharm, Indoor Pharm, Flower Pharm, Fungus Pharm, Oil Pharm and Soap Pharm are the first and only pesticides to qualify as "USDA Certified Organic". The announcement was made Saturday at the 2006 Annual Convention of USDA certifying body Oregon Tilth in Salem, Oregon.

Developed by a family of Organic Growers in California, the Pharm Solutions line of patented, organic pesticides have been available since 2004. In Jan, 2005 the ready-to-use line was voted "Best New Product", "Best New Packaging" and "Best of Show" by the Lawn and Garden Marketing & Distribution Association. Recognizable in its distinctive colorful packaging, the line is available nationwide at Independent Lawn and Garden Centers, Farm Supply Stores, Whole Foods Markets, Smith and Hawken, Fred Meyer Stores, as well as many catalogs and gardening websites, including [www.pharmsolutions.com](http://www.pharmsolutions.com), [homedepot.com](http://homedepot.com) and [amazon.com](http://amazon.com)

"The process has been challenging", said Founder and President Susan E. Lewis. "We believe we have set a new organic standard for pesticides and hope this accomplishment motivates other pesticide manufacturers to follow suit. We think every pesticide sold should be 'USDA /NOP Certified Organic', consumers should not have to settle for less."

Pharm Solutions concentrates contain only Certified Organic and Pharmaceutical Grade ingredients and are manufactured in a Certified Organic manufacturing facility. Insecticide, Miticide and Fungicide concentrates are available for shipping worldwide.

For distribution information on these revolutionary products please contact Pharm Solutions Inc. at 805.927.7500
